Dinner Keynote

Robert W. Thomas Jr.
Director
Capabilities and Resource Integration Directorate (J8)
United States Space Command (USSPACECOM)
Member Senior Executive Service

The USSPACECOM is a military service that organizes, trains, and equips space forces in order to protect U.S. and allied interests in space and to provide space capabilities to the joint force. USSPACECOM responsibilities include developing Guardians, acquiring military space systems, maturing the military doctrine for space power, and organizing space forces to present to our Combatant Commands.

Von Braun Center
700 Monroe St SW, Huntsville, AL 35801

It is named in honor of Dr. Wernher von Braun, the German-American rocket scientist, who, after World War II, was brought to the United States Army’s Redstone Arsenal and living with many of his colleagues, laid the foundation for the United States space program. Planning for the facility began in 1965. The original construction included the sports arena, an exhibit hall space now known as East Hall, a concert hall, a playhouse, and museum space for the Huntsville Museum of Art.

Michael Cox
Vice President
Strategic Systems, Defense Customer Accounts
Raytheon Missiles and Defense
Joint Tactical Ground Stations (JTAGS) are forward-deployed, echelon-above-corps, space-ground systems that receive, process and disseminate direct down-linked infrared data from overhead sensors. They provide commanders with near-real-time warning, alerting and cueing information on ballistic missile launches. Ongoing product improvements integrate JTAGS with the next-generation Space Based Infrared System (SBIRS) satellites. Four JTAGS are deployed worldwide as part of the U.S. Strategic Command’s Theater Event System. U.S. Army Space and Missile Defense Command Soldiers operate JTAGS, providing 24/7 support to theater operations.

Teledyne Brown Engineering, Inc. is an industry leader in engineered systems and advanced manufacturing.

The Company provides full-spectrum systems engineering, integration, manufacturing, and lifecycle sustainment solutions to the maritime, aerospace, defense, energy and environment markets.

Teledyne Brown has expertise in systems integration, technology development, hardware design, prototype development, system test and evaluation, advanced manufacturing, performance-based logistics solutions, and operations and maintenance.

Lisa Baumann, CSDP
Supplier Diversity Senior Manager
Lockheed Martin Missiles and Fire Control

An Ethical and Agile Supply Chain
The pursuit of new ideas executed the right way is the bedrock of our supplier relationships. The trust we’ve built with our supplier community over decades helps us operate efficiently and deploy our technology safely.
Miranda Duke  
Senior Buyer  
Huntsville Utilities

Rita Brooks  
Director  
Small Business Programs  
SAIC

We are integrators, collaborators, and problem solvers. From imagining the best the future can be to envisioning new paths to get there, SAIC sees the world differently.

SAIC is a premier Fortune 500® technology integrator solving our nation’s most complex modernization and readiness challenges across the defense, space, civilian, and intelligence markets. Our robust portfolio of offerings includes high-end solutions in systems engineering and integration; enterprise IT, including cloud services, cyber, and software; advanced analytics and simulation; and training.

Bruce G. Emerson  
Director  
Supply Chain Management  
SAIC-NASA

We seek small businesses with the following:  
Innovative technology solutions and products  
Strong current and past performance  
Technical certifications (such as ISO, CMMI, PMP, ITIL®)  
Necessary industry security clearance  
Customer knowledge and intimacy  
Commitment to ethics  
Financial Stability  
Understanding of federal acquisition processes  
Commitment to building a long-term relationship  
Past performance that is relevant to the opportunity

We seek small business subcontractors as well as primes for strategic set-asides.
David Brock
MSFC Small Business Specialist
NASA - Marshall Space Flight Center

Also participating is:
NASA Stennis Space Center - Mississippi

Beth Lamothe
Procurement Analyst
DLA Aviation - Redstone Arsenal

Amy Lacy
Team Lead Acquisition Unit
FBI - Redstone Arsenal

JOIN US IN HUNTSVILLE

We are hiring for hundreds of new jobs in the high-tech city of Huntsville, AL, where a new FBI campus is under construction at the Redstone Arsenal, a 38,000-acre federal research, development, testing and engineering center. We need contractors as well.

Rob Watson
BGSD Small Business Liaison Officer
Northrop Grumman
The United States Department of Transportation (DOT) has had in effect for more than 25 years a policy of helping small business owned and controlled by socially and economically disadvantaged individuals, including minorities and women, in participating in contracting opportunities created by DOT financial assistance programs. Mr. Huffman is seeking to meet with potential contractors at this event. 2021 Budget $70 Million.

Adrianna Clark
SE Region Director
Office of Small Business
U.S. Department of Transportation

Adrianna Clark is the Director of the U.S. Department of Transportation Office of Small Business Southeast Region Field Office covering AL, FL, MS, Puerto Rico and the U.S.V.I. and is tasked with administering programs providing managerial and technical supportive services to DOT small business customers including DBEs, WOSBs, SDBs, HubZone, SDVOSBs and VOSBs in order to enhance their ability to perform on transportation projects.

Mr. Chris Harrington, an Air Force veteran, unique small businesses, identify prime contracting and subcontracting opportunities with SOCOM.
Cheryl Michael  
Senior Analyst  
Office of Small Business Programs  
Missile Defense Agency

Darby Moore  
U.S. Army Technical Assistance Advocate  
U.S. Army SBIR STTR Program  
Redstone Arsenal

The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs allow small, high-tech U.S. businesses (less than 500 employees) and academia the opportunity to provide innovative research and development solutions in response to critical Army needs.

By capturing the tremendous and agile talents of the U.S. small business community, the SBIR and STTR programs benefit the Department of Defense (DoD), the private sector, and our national economy.

Col. Tommy Marks (ret.)  
Director  
MBDA Federal Procurement Center

Mr. Marks is the former Director of Army Small Business Programs out of the Pentagon. Apr 2015-Sep 2018. An Acquisition, Contracting and Logistics Professional. Responsible for oversight and policy of small business programs, which awarded over $19B in contracts annually across all small business socio-economic categories.

Today, he is the Director of the U.S. Department of Commerce MBDA Federal Procurement Center. The MBDA Federal Procurement Center provides access to federal procurement officials and prime contractors and a part of MBDA’s nationwide services network.

It is the first MBDA business center solely focused on federal contracting.

Mobile District
Eddie Postell
Manager
Small Business Advocacy
Alabama Department of Commerce

Eddie Postell and the Small Business Office of Advocacy foster the growth of Alabama’s small operations by giving them a variety of assistance. The office provides information to businesses, and the needs and concerns of small-business owners are regularly addressed. Working closely with the Small Business Development Consortium, the agency’s Small Business Office is working in coordination with the consortium’s 11 Small Business Development Centers at universities throughout the state and jointly publishes Alabama’s Answers, a guide to doing business in Alabama.

The department also participates in joint efforts with ADECA’s Office of Minority Business Enterprise, as well as other groups around the state involved in the development of small business.

Columbus Air Force Base
Procurement Department

Vice President • Army Programs Integration • Government Affairs  
Lockheed Martin  
Huntsville, Alabama

Keynote Address

Michael Cox  
Vice President  
Strategic Systems, Defense Customer Accounts  
Raytheon Missiles and Defense

Michael is responsible for corporate capture development and growth of Raytheon’s suite of missile defense related products to include, Early Warning Radars, Space Sensor Layer, SM-3, SM-6, the Kill Vehicle Enterprise and Counter-Hypersonic programs. Also primary responsibility to develop and leverage significant and deep relationships with MDA and OSD senior leadership.

Raytheon Missiles & Defense provides the industry’s most advanced end-to-end solutions to detect, track and engage threats. Achieving air dominance depends on the technology that powers aircraft and the equipment they carry.

Keynote Address

David J. Byrd  
National Director  
U.S. Department of Commerce  
Minority Business Development Agency

Mr. Byrd joined MBDA as the National Deputy Director in October 2019 after serving as the Deputy Assistant Secretary, Office of Policy Development, at the U.S. Department of Housing and Urban Development (HUD).

Prior to accepting the fourth presidential appointment of his career at MBDA, Mr. Byrd worked on President Trump’s Transition Team as a “talent scout” for executive appointments and on the HUD Agency Action Team, organizing the blueprint for HUD policy and personnel infrastructure.
